NOAA Climate and Global Change Program, Program Announcement

AGENCY: Office of Global Programs, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Climate and Global Change Program represents a National Oceanic and Atmospheric Administration (NOAA) contribution to evolving national and international programs designed to improve our ability to observe, understand, predict, and respond to changes in the global environment. This program builds on NOAA's mission requirements and longstanding capabilities in global change research and prediction. The NOAA Program is a key contributing element of the U.S. Global Change Research Program (USGCRP), which is coordinated by the interagency Committee on Environmental and Natural Resources. NOAA's program is

designed to complement other agency contributions to that national effort.

DATES: Strict deadlines for submission to the FY 1996 process are: Letters of Intent must be received at the Office of Global Programs (OGP) no later than June 7, 1995. Full proposals must be received at OGP no later than August 8, 1995.

Applicants should receive notification of the suitability of their intended proposals by June 30, 1995.

Investigators who have not received notification by that date should contact the program office. The time from target date to grant award varies with program area. We anticipate that review of the full proposal will occur during the fall of 1995 and funding should begin during the early spring of 1996 for most approved projects. April 1, 1996, should be used as the proposed start date on proposals, unless otherwise directed by the appropriate Program Officer.

Applicants should be notified of their status within 6 months. All proposals must be submitted in accordance with the guidelines below. Failure to heed these guidelines may result in proposals being returned without review.

ADDRESSES: Proposals may be submitted to: Office of Global Programs, National Oceanic and Atmospheric Administration, 1100 Wayne Avenue, Suite 1225, Silver Springs, MD 20910-5603.

FOR FURTHER INFORMATION CONTACT: Irma duPree at the above address, or at phone: (301) 427-2089 ext. 17, fax: (301) 427-2073, Internet: duPree@ogp.noaa.gov.

SUPPLEMENTARY INFORMATION:

Funding Availability

NOAA believes that the Climate and Global Change Program will benefit significantly from a strong partnership with outside investigators. Current Program plans assume that 30-35% of the total resources available (approximately \$89 million) anticipated in FY 1996 will support extramural efforts, particularly those involving the broad academic community. Approximately \$28 million will be applied toward awards already in progress and those proposals submitted in FY 1995 that were recommended for funding in FY 1996. Remaining funds, approximately \$16 million, will be available for new grants and cooperative agreements. Annual funding levels are anticipated to be similar or slightly higher in FYs 1997 and 1998 depending on final budget appropriations. This Program Announcement is for projects to be conducted by investigators both inside and outside of NOAA, primarily
